Dear Partners,

LETTER OF RECOMMENDATION FOR DPS PIPES AND PLASTIC LIMITED

This is to recommend the services of DPS Pipes and Plastic Limited to our partners.

The Community Water and Sanitation Agency (CWSA) has since 2018 engaged the services of DPS Pipes and Plastic Limited (DPS) in water projects in Ghana that have been professionally executed, through provision of good pipe products, customer services and great business relationship.

The ranges of PVC and HDPE pipes supplied by DPS respond to our high specifications and standards. Production and delivery of products and other services has always been in accordance with our schedules, which provides an advantage to us meeting deadlines ahead of project timelines.

The company's technical and communication response team are always cooperative and provides support when needed.

We therefore recommend DPS Pipes and Plastics Limited to your entity for any future engagements or projects. We hope you will extend to them your goodwill when it comes to water delivery.

Yours faithfully,

ING. DR. WORLANYO KWADJO SIABI (MV, FGHIE)
CHIEF EXECUTIVE

CC: The MD, DPS Pipes and Plastics Limited, Accra
